SECURITIES MAIN MARKET LISTING REQUIREMENTS**

1. Review of Performance

The Group registered an increase in revenue during the current quarter by 68.6% as compared to preceding year corresponding quarter and an increase of 43.1% on a period to date basis. TIS segment posted higher revenue for the current quarter whilst the increase in revenue for current period to date came from the ICT segment. In tandem with the increase in revenue, the Group reported a profit after tax of RM0.33 million for the current quarter, as compared to a loss after tax of RM0.83 million reported in the preceding year corresponding quarter. For the nine months ended 31 August 2018, the Group posted a lower loss after tax of RM0.44 million as compared to loss after tax of RM1.82 million reported in preceding year corresponding period.

The performance of the respective segment of the Group is summarized as follows:-

As a result, ICT segment achieved a higher profit after tax both during the current quarter and period to date. The overall improved performance was mainly contributed by higher sales volume of new car models fitted with our Telematics products and corresponding increase in sales of automotive related accessories.

TIS Segment

The TIS segment posted a total revenue of RM1.79 million and RM3.71 million respectively during the current quarter and period to date as compared to RM2.72 million and RM7.40 million respectively reported in preceding year corresponding quarter and period to date. The overall drop in revenue was mainly due to reduced turnover from civil infrastructure project works. Despite lower revenue, this segment recorded a marginal improvement in profit after tax of RM0.09 million during the current period as compared to loss after tax of RM0.24 million reported in preceding year corresponding period. This was achieved mainly due to the close monitoring and management of the various project costs.

Property Development Segment

There was no new sale of property reported during the current quarter and period to date. The loss reported for the current quarter and period to date was mainly due to the impairment on trade receivables amounting RM0.70 million accounted for in the immediate preceding quarter.
