UNAUDITED INTERIM FINANCIAL REPORT FOR THE FIRST FINANCIAL QUARTER ENDED 29 FEBRUARY 2020

PART (A): EXPLANATORY NOTES PURSUANT TO MFRS 134

1. Basis of Preparation

This unaudited interim financial report has been prepared in accordance with the reporting requirements as set out in Malaysian Financial Reporting Standards ("MFRS") 134: Interim Financial Reporting and Paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities").

The interim financial report should be read in conjunction with the audited financial statements of the Group for the last financial year ended 30 November 2019 and the accompanying explanatory notes attached to the interim financial report. The explanatory notes attached to the interim financial report provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Company and of the Group since the financial year ended 30 November 2019.

2. Significant Accounting Policies

The accounting policies and methods of computation adopted by the Group in this interim financial report are consistent with those adopted in the audited financial statements for the last financial year ended 30 November 2019, except for the adoption of the amendments/improvements that are mandatory for the current financial period.

(i) <u>New MFRSs and amendments/improvements to MFRSs</u>

The adoption of the new amendments/improvements does not have any material effect on the financial performance or position of the Group, except for MFRS 16 as disclosed below:-

MFRS 16 Leases

Currently under MFRS 117 Leases, leases are classified either as finance leases or operating leases. A lessee recognises on its statement of financial position assets and liabilities arising from the finance leases. MFRS 16 eliminates the distinction between finance and operating leases for lessees. Instead, all leases are brought onto the statement of financial position except for short-term and low value asset leases.

On adoption of this standard, the Group is required to capitalise its rented premises and equipment on the statements of financial position by recognising them as "rights-of-use" assets and their corresponding lease liabilities for the present value of future lease payments.

The Group has elected not to recognize right-of-use assets and lease liabilities for shortterm leases of office equipment and rented premises that have a lease term of 12 months or less and leases of low value assets based on the value of the underlying asset when new, such as office equipment. The Group recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Based on initial assessment, the adoption of MFRS 16 has no significant financial impact to the Group and the Company.

UNAUDITED INTERIM FINANCIAL REPORT FOR THE FIRST FINANCIAL QUARTER ENDED 29 FEBRUARY 2020

PART (B): ADDITIONAL INFORMATION PURSUANT TO APPENDIX 9B OF BURSA SECURITIES MAIN MARKET LISTING REQUIREMENTS

1. Review of Performance

The Group's revenue of RM11.36 million for the first quarter was 16.7% lower as compared to preceding year corresponding quarter of RM13.64 million. The decrease was mainly due to lower sales contribution by the ICT segment. In the current quarter, revenue derived from ICT segment accounted for 90.5% of the Group's revenue and TIS segment accounted for the remaining 9.5% of the total revenue as compared to 92.1% and 7.9% respectively registered in the preceding year corresponding quarter.

In spite of lower revenue, the Group posted a profit after tax of RM0.98 million for current quarter as compared to profit after tax of RM0.73 million reported in the preceding year corresponding quarter mainly due to the successful price improvement in certain ICT products sold and enhancement in cost management.

The performance of the respective business segment of the Group is summarized as follows:-

| | | Preceding Year | |

| Segment revenue | 10,287 | 12,567 | -18.14 |

Lower sales quantities was posted in the current quarter mainly due to the lesser production days at automakers' end. Despite reported a lower revenue, profit after tax achieved in the current quarter of RM1.09 million was attributed to the successful price improvement in certain products sold and better control over costs and production levels.

3. Commentary on the Group's Prospects

The Movement Control Order ("MCO") imposed by the Malaysian Government since 18 March 2020 to curb the spread of COVID-19 pandemic has resulted in a halt to our Group's business activities. Although our Group received the Ministry of International Trade and Industry's ("MITI") approval to resume operations during phase 3 of MCO under strict conditions, the management was cautious in reactivating its business activities in stages to ensure all the work processes are in compliance with MITI's Standard Operating Procedures ("SOPs").

Whilst the Group is taking steps to return our operations gradually to normalcy, we are mindful that our ICT business has been affected by the order flow from our existing customers due to foreseeable change in the consumer spending and demand, disruption in supply chain and delays in material shipment from logistic hubs in impacted areas and overseas suppliers and the various costs associated with complying to the MITI's SOPs. This has led to higher operating costs in the short to medium term. The same challenges and factors have also affected our TIS segment business activities.

Our management team is currently assessing the current and future impact of this pandemic and shall remain vigilant in monitoring the Group's performance moving forward. We are committed to navigating through this challenging period by exercising prudence in its business dealings, implementing strict costs control and appropriate austerity measures to safeguard the Group's financial and operational performance.
