UNAUDITED INTERIM FINANCIAL STATEMENTS FOR THE FIRST QUARTER ENDED 28 FEBRUARY 2011

(A) EXPLANATORY NOTES PURSUANT TO FRS 134

1. Basis of Preparation

The interim financial statements are unaudited and have been prepared in compliance with Financial Reporting Standard ("FRS") 134: Interim Financial Reporting and Paragraph 9.22 of the Bursa Malaysia Securities Berhad ("BMSB") Listing Requirements.

The interim financial statements should be read in conjunction with the audited financial statements of the Group for the last financial year ended 30 November 2010. These explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the financial year ended 30 November 2010.

1.1 Significant Accounting Policies

The significant accounting policies and methods of computation adopted for the interim financial statements are consistent with those adopted in the financial statements for the financial year ended 30 November 2010, except for the adoption of the following Financial Reporting Standards ("FRSs"), amendments to FRSs, IC Interpretations and Technical Releases ("TRs") that are effective for financial periods beginning on or after 1 January 2010 and 1 July 2010:-

TR i-3 Presentation of Financial Statements of Islamic Financial Institutions

The adoption of the above FRSs, Amendments to FRSs, IC Interpretations and TRs are not expected to have significant impact on the financial statements of the Group, except for the changes in accounting policies as indicated below:-

FRS 101, Presentation of Financial Statements (Revised)

The revised FRS 101 requires owner and non-owner changes in equity to be presented separately. Thus, the statement of changes in equity will include only details of transactions with owners, with all non-owner changes in equity presented as a single line item termed as total comprehensive income. In addition, the revised standard introduces the statement of comprehensive income: It presents all items of income and expense recognised in income statement, together with all other items of recognised income and expense, either in one single statement or in two link statements. The Group has elected to present the statement of comprehensive income in one single statement. New terminologies will replace "balance sheet" with "statement of financial position" and "cash flow statement" with "statement of cash flows". Comparative information had been re-presented to conform with the presentation required by the revised standard. The adoption of the revised standard will only impact the form and content of the presentation of the financial statements.

Amendments to FRS 117, Leases

The amendments remove the specific guidance on classifying leasehold land as operating lease. As such, leases of land will be classified as either finance or operating lease based on the general principle of FRS 117. Consequently, upon initial application, leasehold land where in substance a finance lease will be classified from "prepaid land lease payments" to "property, plant and equipment" and measured as such retrospectively. Following this reassessment, the Group has reclassified the existing long term leasehold land to property, plant and equipment and the changes have been accounted for retrospectively by restating the following opening balances:-

1. Basis of Preparation (Cont'd)

1.1 Significant Accounting Policies (Cont'd)

FRS 3, Business Combinations (Revised) and FRS 127, Consolidated and Separate Financial Statements (Revised)

The revised FRS 3 introduces a number of significant changes to the accounting for business combinations with greater use of fair value. These changes include recognising all acquisition-related costs as expense, measuring any pre-existing interest at fair value and allowing measurement of non-controlling interest (previously known as minority interest) at either fair value or at its proportionate share of the acquiree's net identifiable assets. The revised FRS 127 requires accounting for changes in ownership interests by the Group in a subsidiary, while maintaining control, to be recognised as an equity transaction. When the Group loses control of a subsidiary, any interest retained in the former subsidiary will be measured at fair value with the gain or loss recognised in profit or loss. The revised standard also requires all losses attributable to the minority shareholders to be absorbed by minority shareholders instead of by the parent. The Group is applying the changes of revised FRS 3 and FRS 127 prospectively.

FRS 139, Financial Instrument: Recognition and Measurement

FRS 139 establishes principles for recognising and measuring financial assets, financial liabilities and some contracts to buy and sell non-financial items. Financial instruments are recorded initially at fair value. Subsequent measurement of the financial instruments at the reporting date reflects the designation of the financial instruments. The details of the changes in accounting policies and the effects arising from the adoption of FRS 139 are as follows:-

Financial Assets

Financial assets are classified as either financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, available-for-sale financial assets, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

The Group's financial assets include financial assets at fair value through profit or loss, available-for-sale financial assets and loans and receivables.

Financial assets at fair value through profit or loss

Financial assets are classified as financial assets at fair value through profit or loss if they are held for trading or are designated as such upon initial recognition. Financial assets held for trading are derivatives or financial assets acquired principally for the purpose of selling in the near term.

Subsequent to initial recognition, these financial assets are measured at fair value. Any gains or losses arising from changes in fair value are recognised in profit or loss. Net gains or losses do not include interest and dividend income, which are recognised separately in profit or loss as part of other loss or other income. Financial assets that is held for trading purposes are presented as current whereas financial assets that is not held primarily for trading purposes are presented as non-current or current based on the settlement date.

1. Basis of Preparation (Cont'd)

1.1 Significant Accounting Policies (Cont'd)

FRS 139, Financial Instrument: Recognition and Measurement (Con'd)

Available-for-sale financial assets

Available-for-sale financial assets are measured at fair value and changes in the fair value are recognised directly in equity as "Fair Value Reserve" until the investment is derecognised, at which time the cumulative gain or loss is removed from the Fair Value Reserve and recognised in statement of comprehensive income. In the event where the investment is determined to be impaired, the cumulative loss is recognised in the statement of comprehensive income and removed from the Fair Value Reserve.

In accordance with the transitional provision of FRS 7, the changes affecting available-forsale financial assets are applied prospectively and the comparatives as at 30 November 2010 are not restated. Instead, the changes have been accounted for by restating the opening balance of the statement of financial position as at 1 December 2010 as shown below:-

Statement of Financial Position

	As previously stated as at 1.12.2010 RM'000	Effect of adopting FRS 139 RM'000	As restated as at 1.12.2010 RM'000
Group and Company			
<u>Assets</u>			
Other Investments - Available-for-sale financial assets	91	159	250
<u>Equity</u>			
Fair Value Reserve	-	159	159

Loans and receivables

Financial assets with fixed or determinable payments that are not quoted in an active market are classified as loans and receivables. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest rate method. Gain or loss is recognised in profit or loss when the loans and receivables are derecognised or impaired, and through the amortisation process. Loans and receivables are classified as current assets, except for those having maturity dates later than 12 months after the reporting date which are classified as non-current.

Financial Liabilities

Financial liabilities are classified as either financial liabilities at fair value through profit or loss, other financial liabilities at amortised cost using the effective interest rate method, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

The Group's financial liabilities include trade and other payables and loans and borrowings. These financial liabilities are measured initially at fair value and subsequently measured at amortised cost using the effective interest rate method.

FRS 139, Financial Instrument: Recognition and Measurement (Con'd) Financial Guarantee Contracts

The Company provides unsecured financial guarantees to financial institutions/trade creditors in respect of banking/credit facilities granted to certain fellow subsidiaries as disclosed in Part (A) Note 12. The maximum exposure to credit risk amounts to RM1.737 million representing the outstanding banking/credit facilities of the fellow subsidiary companies as at 28 February 2011.

The financial guarantees have not been recognised since the fair value on initial recognition was not material.

New and Revised FRSs, Amendments for FRSs, IC Interpretations and TRs

UNAUDITED INTERIM FINANCIAL STATEMENTS FOR THE FIRST QUARTER ENDED 28 FEBRUARY 2011

(B) EXPLANATORY NOTES PURSUANT TO APPENDIX 9B OF THE LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD

1. Review of Performance

The Group's turnover for the three months ended 28 February 2011 amounted to RM13.862 million, which is approximately 17.9% higher than the preceding year corresponding quarter of RM11.758 million. The ICT segment contributed approximately 92% of the Group's turnover for the current quarter. The increase in turnover for the current quarter was mainly attributable to increase in the sale of ICT products. Consequently, the Group recorded an increase in profit before tax of RM688,000/- for the current quarter under review as compared to profit before tax of RM398,000/- reported in preceding year corresponding period.

2. Material Changes in the Profit Before Tax for the Quarter Reported on as Compared with the Immediate Preceding Quarter.

The Group reported a profit before tax of RM688,000/- for current quarter as compared to profit before tax of RM707,000/- reported in immediate preceding quarter. The lower profit reported for the current quarter was arrived at after impairment loss on certain freehold land of a subsidiary company of approximately RM140,000/-. Otherwise the Group would have recorded an improvement in operating results for the current quarter mainly due to increase in turnover and contribution from the ICT business segment.

3. Prospects for the Current Financial Year

Barring any unforeseen circumstances, the Board is optimistic of a positive performance for the remaining financial quarters.

4. Variances of Actual Profit from Forecast Profit

Not applicable.

5. Taxation

	Current	Cumulative
