Dear Sir/ Madam,

1. INTRODUCTION

On 19 November 2020, UOBKH had, on behalf of our Board, announced that we proposed to undertake the following:-

- i. bonus issue of up to 32,518,033 Bonus Shares on the basis of 1 Bonus Share for every 2 existing AHB Shares held on the Bonus Entitlement Date; and
- ii. issuance of up to 48,777,049 Warrants on the basis of 1 Warrant for every 2 AHB Shares held on the Warrants Entitlement Date.

On 15 December 2020, UOBKH had, on behalf of our Board, announced that Bursa Securities had vide its letter dated 15 December 2020, resolved to approve the following:-

- a. listing of and quotation for up to 32,518,033 Bonus Shares to be issued pursuant to the Proposed Bonus Issue of Shares on the Main Market of Bursa Securities;
- b. admission of the Warrants to the Official List and listing of and quotation for up to 48,777,049 Warrants to be issued pursuant to the Proposed Issue of Free Warrants on the Main Market of Bursa Securities; and
- c. listing of and quotation for up to 48,777,049 new AHB Shares to be issued pursuant to the exercise of the Warrants on the Main Market of Bursa Securities,

subject to the terms and conditions as set out in Section 8 of this Circular.

THE PURPOSE OF THIS CIRCULAR IS TO PROVIDE YOU WITH THE RELEVANT INFORMATION ON THE PROPOSALS AS WELL AS TO SEEK YOUR APPROVAL FOR THE RESOLUTIONS PERTAINING TO THE PROPOSALS TO BE TABLED AT THE EGM. THE NOTICE OF EGM AND THE PROXY FORM ARE ENCLOSED TOGETHER WITH THIS CIRCULAR.

YOU ARE ADVISED TO READ AND CONSIDER CAREFULLY THE CONTENTS OF THIS CIRCULAR TOGETHER WITH THE APPENDICES CONTAINED HEREIN BEFORE VOTING ON THE RESOLUTIONS PERTAINING TO THE PROPOSALS TO BE TABLED AT THE EGM.

2. DETAILS OF THE PROPOSED BONUS ISSUE OF SHARES

As at the LPD, our total issued shares is 65,036,066 AHB Shares. For avoidance of doubt, we do not have any outstanding convertible securities nor do we retain any treasury shares as at the LPD.

2.1 Basis and number of Bonus Shares

The Proposed Bonus Issue of Shares entails the issuance of up to 32,518,033 Bonus Shares on the basis of 1 Bonus Share for every 2 existing AHB Shares held on the Bonus Entitlement Date. The actual number of Bonus Shares to be issued pursuant to the Proposed Bonus Issue of Shares will depend on our total number of issued Shares on the Bonus Entitlement Date.

In determining entitlements under the Proposed Bonus Issue of Shares, fractional entitlements, if any, shall be disregarded and dealt with in such manner as our Board in its absolute discretion deems fit and expedient, and in our best interest.

The price of AHB Shares will be adjusted pursuant to the Proposed Bonus Issue of Shares. Purely for illustrative purpose only, based on the 5-day VWAP of AHB Shares and the daily VWAP of AHB Shares for the 3-month period up to and including the LPD, the theoretical ex-bonus price ("**TEBP**") of AHB Shares is as follows:-

	Before the Proposed Bonus Issue of Shares Market price/ Share RM	After the Proposed Bonus Issue of Shares TEBP/ Share RM
Last transacted price as at the LPD	1.810	1.207
5-day VWAP up to the LPD	1.823	1.215
Lowest 3-month daily VWAP (28 September 2020)	0.795	0.530

Based on the above, the Proposed Bonus Issue of Shares is in compliance with Paragraph 6.30 (1A) of the Listing Requirements which requires the listed issuer to ensure that its share price adjusted for a bonus issue is not less than RM0.50 based on the daily volume weighted average share price during the 3-month period before the application date.

The Proposed Bonus Issue of Shares will not be implemented on a staggered basis.

2.2 No capitalisation of reserves

Our Board has resolved that the implementation of the Proposed Bonus Issue of Shares shall be undertaken without any capitalisation from our reserves and that the Bonus Shares shall be issued as fully paid Shares at nil consideration. The issued share capital in RM value terms will not be affected albeit an increase in the number of Shares in issue pursuant to the Proposed Bonus Issue of Shares.

As the Proposed Bonus Issue of Shares is undertaken without capitalisation from our reserves, it allows us to conserve our reserves.

2.3 Ranking of the Bonus Shares

The Bonus Shares will, upon allotment and issuance, rank equally in all respects with the existing AHB Shares, save and except that the Bonus Shares will not be entitled to any dividends, rights, allotments and/ or any other forms of distribution that may be declared, made or paid before the Bonus Entitlement Date.

The Bonus Shares will be credited directly into the respective Central Depository System (CDS) accounts of shareholders who hold AHB Shares on the Bonus Entitlement Date and no physical share certificates will be issued as the Bonus Shares are prescribed securities under Section 14(5) of the Depositories Act.

For avoidance of doubt, the Bonus Shares will be entitled to the Warrants.

2.4 Listing of and quotation for the Bonus Shares

Approval has been obtained from Bursa Securities vide its letter dated 15 December 2020 for the listing of and quotation for the Bonus Shares to be issued pursuant to the Proposed Bonus Issue of Shares on the Main Market of Bursa Securities. The Bonus Shares shall be listed and quoted on the Main Market of Bursa Securities on the next Market Day following the Bonus Entitlement Date.

A notice of allotment of the Bonus Shares will be issued and despatched to shareholders who hold AHB Shares on the Bonus Entitlement Date within 4 Market Days after the date of listing of and quotation for the Bonus Shares, or such other period as may be prescribed by Bursa Securities.

3. DETAILS OF THE PROPOSED ISSUE OF FREE WARRANTS

3.1 Basis and number of Warrants

The Proposed Issue of Free Warrants entails the issuance of up to 48,777,049 Warrants on the basis of 1 Warrant for every 2 AHB Shares held by the Entitled Warrant Holders. It is the intention of our Board to announce the Bonus Entitlement Date first and the announcement of the Warrants Entitlement Date after the completion of the Proposed Bonus Issue of Shares.

Based on the number of AHB Shares in issue as at the LPD and assuming the Proposed Bonus Issue of Shares has been completed, our enlarged number of issued shares will be up to 97,554,099 AHB Shares. As such, a total of up to 48,777,049 Warrants will be issued pursuant to the Proposed Issue of Free Warrants.

The basis for the Proposed Issue of Free Warrants was determined after taking into consideration the following:-

- i. amount of proceeds that could potentially be raised as and when the Warrants are exercised during the exercise period of the Warrants;

- ii. dilutive effects arising from the full exercise of the Warrants on our consolidated EPS as set out in Section 6.4 of this Circular; and
- iii. compliance with Paragraph 6.50 of the Listing Requirements, which requires that the number of new AHB Shares that will arise from all outstanding Warrants, when exercised, shall not exceed 50% of the total number of issued Shares (excluding treasury shares and before the exercise of the Warrants) at all times.

In determining the entitlements under the Proposed Issue of Free Warrants, fractional entitlements, if any, shall be disregarded and dealt with in such manner as our Board in its absolute discretion deems fit and expedient, and in our best interest.

The Warrants will be issued in registered form and constituted by a deed poll to be executed by us ("**Deed Poll**"). The indicative salient terms of the Deed Poll are set out in **Appendix I** of this Circular.

The Warrants Entitlement Date will be a date to be determined and announced after the Bonus Entitlement Date, hence the Bonus Shares will be entitled to the Warrants.

The Proposed Issue of Free Warrants is not intended to be implemented in stages over a period of time.

3.2 Basis and justification of determining the issue price and exercise price of Warrants

The Warrants will be issued at no cost to the Entitled Warrant Holders.

Our Board has fixed the exercise price of the Warrants at RM0.65 per Warrant, which represents a discount of approximately 29.9% to the TEBP of AHB Shares of RM0.927 each, calculated based on the 5-day VWAP of AHB Shares up to and including 18 November 2020, being the last traded day of AHB Shares immediately preceding the date of announcement of the Proposals, of RM1.390 each.

Our Board, in determining the exercise price of the Warrants, has taken into consideration amongst others, the following:-

- i. the TEBP of AHB Shares of RM0.927 each, calculated based on the 5-day VWAP of AHB Shares up to and including 18 November 2020, being the last traded day of AHB Shares immediately preceding the date of announcement of the Proposals of RM1.390 each, subject to a discount of not more than 30%;
- ii. the prevailing market conditions and the historical market price of AHB Shares;
- iii. the Warrants being exercisable at any time within a 3-year period from the date of issuance of the Warrants; and
- iv. the potential future earnings of AHB Group.

3.3 Ranking of the new AHB Shares to be issued arising from the exercise of the Warrants

The new AHB Shares to be issued pursuant to the exercise of the Warrants will, upon allotment and issuance, rank equally in all respects with the existing AHB Shares, save and except that the new AHB Shares to be issued arising from the exercise of the Warrants will not be entitled to any dividends, rights, allotments and/ or any other forms of distribution that may be declared, made or paid before the date of issuance and allotment of the new AHB Shares arising from the exercise of the Warrants.

3.4 Listing of and quotation for the Warrants and new AHB Shares to be issued arising from the exercise of the Warrants

Bursa Securities had, vide its letter dated 15 December 2020, approved the following:-

- i. admission of the Warrants to the Official List and the listing of and quotation for the Warrants; and
- ii. listing of and quotation for up to 48,777,049 new AHB Shares to be issued pursuant to the exercise of the Warrants,

subject to the conditions as set out in Section 8 of this Circular.

3.5 Utilisation of proceeds

The Proposed Bonus Issue of Shares will not raise any funds for us and the Warrants will not raise any immediate funds for us when issued as the Warrants will be issued without any cost to the Entitled Warrant Holders. The amount of proceeds to be raised from the exercise of the Warrants would depend on the actual number of Warrants exercised during the exercise period of the Warrants. As such, the exact quantum for utilisation of the proceeds to be used cannot be determined at this juncture.

For illustration purpose, assuming all the Warrants are exercised at the exercise price of RM0.65 per Warrant, we will raise gross proceeds of up to approximately RM31.71 million. For clarity, any proceeds raised, as and when the Warrants are exercised, shall be utilised for the following:-

- i. working capital of AHB Group which may include payment of trade and other payables (which includes payment for administrative expenses such as staff salaries, welfare and training and other expenses such as utilities and office upkeep and maintenance). Based on the latest unaudited quarterly results of AHB Group for the 9-month financial period ended 31 August 2020, AHB Group's trade and other payables stood at approximately RM11.66 million and the average trade and other payables turnover ratio was 102 days.

The allocation of the proceeds to be utilised for each component of working capital is subject to AHB Group's operating requirements at the time of utilisation, and such allocation shall be determined at our Board's discretion; and

- ii. partial repayment of AHB Group's borrowings. The allocation of the proceeds to be utilised for the partial repayment of AHB Group's borrowings is subject to the actual number of Warrants being exercised by the holders of the Warrants during the exercise period of the Warrants and AHB Group's total borrowings at material time. Hence, the annual savings in interest payments cannot be reasonably determined at this juncture.

As at the LPD, AHB Group's total borrowings which consist of bank overdrafts only stood at approximately RM0.44 million.

As at the LPD, AHB Group's cash and cash equivalent stood at approximately RM23.76 million (net of cash deposits with licensed banks under lien) and we have sufficient working capital for the next 12 months. Any proceeds raised from the exercise of the Warrants will be used as additional funds for AHB Group's working capital requirements as well as partial repayment of borrowings. The indicative time frame for the utilisation of the proceeds raised is as follows:-

- i. For working capital, within 12 months from the receipt of proceeds; and
- ii. For partial repayment of borrowings, within 3 months from the receipt of proceeds.

The indicative breakdown of the allocation of the proceeds raised from the exercise of the Warrants between working capital and partial repayment of borrowings will be determined by our Board as it deems fit and pending the utilisation of proceeds raised from the exercise of the Warrants, such proceeds will be placed with licensed financial institutions or short-term money market instruments. Any interest income received from such deposits or instruments will be used as additional working capital for AHB Group.

4. RATIONALE AND JUSTIFICATIONS FOR THE PROPOSALS

4.1 Proposed Bonus Issue of Shares

Our Board intends to undertake the Proposed Bonus Issue of Shares to reward our shareholders in the form of Bonus Shares for their loyalty and continued support as the Proposed Bonus Issue of Shares serves to:-

- i. increase the number of AHB Shares held by our shareholders at no cost to be incurred by our shareholders, while maintaining their percentage of equity shareholding held in us;
- ii. potentially result in an improved trading liquidity of AHB Shares traded in the market at an affordable Share price i.e. lower trading price, without affecting our market capitalisation size; and
- iii. encourage greater participation by our shareholders and/ or investors and to potentially widen our shareholder base.

In addition, the implementation of the Proposed Bonus Issue of Shares via the adoption of the enhanced bonus issue framework (without capitalisation of reserves) will not affect our reserves and the total NA of AHB Group.

4.2 Proposed Issue of Free Warrants

Our Board intends to undertake the Proposed Issue of Free Warrants to reward our shareholders in the form of Warrants for their loyalty and continued support as the Proposed Issue of Free Warrants serves to:-

- i. reward our shareholders for their continued support by enabling them to participate in our derivative without incurring any costs;
- ii. provide our shareholders an alternative means to participate and trade in the equity of AHB;
- iii. provide our shareholders an opportunity to further increase their equity participation in AHB by exercising the Warrants at a pre-determined price during the exercise period. Our shareholders may also benefit from potential capital gain in the event of Share price appreciation through the exercise of the Warrants;
- iv. strengthen our capital base, as and when the Warrants are exercised; and
- v. provide an appropriate avenue to raise funds as opposed to other fund raising exercises in view that it will progressively raise proceeds as and when the Warrants are exercised to fund AHB Group's working capital and partial repayment of AHB Group's borrowings as highlighted in Section 3.5 of this Circular without the need of incurring interest cost as in the case of bank borrowings. This will consequently improve the gearing level of AHB Group.

4.3 Other equity fund raising exercises in the past 12 months

For shareholders' information, we had on 7 September 2020, announced a private placement of up to 10,839,413 AHB Shares, representing up to 20% of the then total number of issued Shares pursuant to Sections 75 and 76 of the Act ("**Private Placement**"). On 19 October 2020, 10,839,000 AHB Shares were issued and allotted at an issue price of RM0.724 each and were listed and quoted on the Main Market of Bursa Securities on 20 October 2020, raising total gross proceeds of approximately RM7.85 million. The status of the utilisation of the said gross proceeds as at the LPD is set out below:-

Private Placement	Expected timeframe for utilisation	Amount allocated RM'000	Amount utilised as at the LPD RM'000
Setting up of manufacturing line ^{*1}	Within 12 months from the receipt of placement funds	1,500	72

Expenses in relation to the Private Placement	Upon completion of the Private Placement	48	48

Notes:-

^{*1} The proceeds earmarked for setting up of manufacturing line will be used for the purchase of machinery such as output display system, auto screwing machine, screwing machine jig, auto visual measuring instrument machine and conveyor belt. All machinery and equipment required for the setting up of the production and assembly line will be sourced from local manufacturers. The setting up of manufacturing line is intended to cater for the manufacturing of AHB Group's in-house design built-in-toll reader ("**BITR**") and digital video recorder ("**DVR**") products. The aforementioned products will be supplied to local automobile manufacturers and overseas automobile manufacturers in the future as well.

The manufacturing line is expected to have a production capacity of 12,000 units/ month for BITR and 5,000 units/ month for DVR products:-

Type of machinery	Quantity	Total cost RM	Production capacity Units per month	Expected production output Units per month
Production and assembly line for:-

Quality control and testing system	1	555,000	-	-
Total		1,500,000		

^{*2} The proceeds earmarked for working capital will be used for amongst others, to finance inventories and payment to creditors for manufacturing activities in the Information and Communication Technology ("**ICT**") segment and payment to subcontractors to fulfil AHB Group's existing and new contracts in the Telecommunications, Infrastructure and Services ("**TIS**") segment.

The breakdown of the working capital utilised up to the LPD is as follows:-

5. INDUSTRY OVERVIEW AND OUTLOOK OF AHB GROUP

5.1 Overview and outlook for the Malaysian economy

For 2019 as a whole, the Malaysian economy expanded by 4.3% (2018: 4.7%).

(Source: Developments in the Malaysian Economy, Economic and Financial Developments in the Malaysian Economy in the Fourth Quarter of 2019, Bank Negara Malaysia)

The Malaysian economy experienced the full impact of the COVID-19 pandemic in the second quarter of 2020, with the real gross domestic product ("**GDP**") contracting by 17.1%. The contraction was mainly attributed to the imposition of the Movement Control Order ("**MCO**") to contain the outbreak. Though affecting all sectors in the economy, the move was necessary to flatten the COVID-19 curve and save lives. Hence, the Government has announced several stimulus packages totalling RM305 billion to support both households and businesses. Reinforced by the reopening of the economy in phases, growth is expected to improve gradually during the second half of the year, cushioning the significant contraction in the first half. Thus, Malaysia's GDP is expected to contract by 4.5% in 2020, before rebounding between 6.5% and 7.5% in 2021. With the bold and swift measures undertaken Malaysia has been recognised as one of the most successful countries in managing the socio-economic impact of the pandemic.

Domestic demand is expected to contract by 3% in 2020, with private and public sectors' spending declining by 3.2% and 2.1%, respectively. In the first half of 2020, domestic demand declined significantly by 7.7%, amid restricted movements to contain the COVID-19 pandemic. Nevertheless, the announcement of various stimulus packages and the gradual resumption of economic activities are expected to restore business and consumer confidence in the second half of the year. Hence, domestic demand is anticipated to turnaround to 1.5% during the period and expand further by 6.9% in 2021.

Private consumption declined by 6% during the first half of 2020, affected by the implementation of the MCO. However, household spending is anticipated to pick up during the second half of the year, on the back of various stimulus packages aimed at providing support to households and businesses. The measures include a moratorium on loan repayments, temporary optional reduction in employees' contributions to the Employees Provident Fund and discounts on electricity bill as well as low interest rates. As a result, private consumption is projected to rebound by 4.2% in the second half, cushioning overall consumption activities, which is expected to record a marginal decrease of 0.7% in 2020.

Private consumption is anticipated to increase by 7.1% in 2021, mainly supported by higher disposable income arising from buoyant domestic economic activities, stronger export earnings, accommodative financial stance, extension of tax relief on childcare and favourable stock market conditions. Better job prospects, following broader improvement in the economy and measures addressing employability, are also expected to contribute to household spending. Furthermore, the expected recovery in the tourism-related industries following tax incentives on domestic tourism expenses for households will also provide additional impetus to private sector spending. As the nation rapidly shifts towards adopting digitalisation, the broader availability of various e-commerce platforms and rollout of 5G technology will facilitate economic activities.

In line with the reopening of the economy from earlier COVID-19 containment measures and improving external demand conditions, the Malaysian economy recorded a smaller contraction of 2.7% in the third quarter of 2020. This recovery is seen across most economic sectors, particularly the manufacturing sector, which turned positive on account of strong electrical and electronics (E&E) production activity. On the expenditure side, domestic demand contracted at a slower pace, while net exports rebounded. On a quarter-on-quarter seasonally adjusted basis, the economy turned around to register an expansion of 18.2% in the third quarter of 2020 (2Q 2020: -16.5%).

Domestic demand recorded a smaller decline of 3.3% in the third quarter of 2020 (2Q 2020: -18.7%), driven by improvements in both consumption and investment activity. Household spending was mainly supported by gradual recovery in income conditions, while investment activity benefited from the ease of containment measures. Net exports rebounded to record a positive growth of 21.9% in the third quarter of 2020 (2Q 2020: -38.6%), driven by a larger improvement in exports vis-à-vis imports.

Private consumption recovered significantly from the trough in the second quarter to record a smaller contraction of 2.1% in the third quarter of 2020 (2Q 2020: -18.5%). Household spending improved with further loosening of movement restrictions, while broad income conditions gradually recovered amid resumption of economic activities. The improvement in spending was reflected in the uptrend across most retail and financing data during the quarter. Private consumption activity was also supported by stimulus measures such as the EPF i-Lestari withdrawals, wage subsidies and sales tax reduction for cars.

Public consumption registered a higher growth of 6.9% (2Q 2020: 2.3%), benefitting from increased Government spending on supplies and services and faster expansion in emoluments.

5.2 Overview and outlook of the information and communication technology industry in Malaysia

The services sector contracted by 6.7% in the first half of 2020 largely due to worldwide travel bans, domestic movement restrictions and quarantines, which severely affected the tourism-related subsectors and airlines. Among the subsectors that have been severely affected include wholesale and retail trade, food & beverages and accommodation, transportation and storage as well as real estate and business services. Nevertheless, the information and communication subsector expanded as online transactions increased significantly during the MCO.

The information and communication subsector expanded by 5.8% in the first half of 2020, primarily supported by higher usage of internet, particularly online transactions, entertainments, educational and work from home ("**WFH**") activities. The subsector is projected to expand further by 7.1% in the second half of the year buoyed by various Government initiatives. The initiative include a tax exemption of up to RM5,000 for information, communication and technology equipment to support WFH activities and individual income tax relief of up to RM2,500 on the purchase of digital devices.

For the year, the information and communication subsector is anticipated to accelerate by 6.4% as WFH activities, virtual communication and online businesses become the new normal. In 2021, the subsector is projected to expand by 7.9%, with the fifth generation cellular network (5G) spectrum facilitating e-commerce and e-learning activities. The roll-out of the National Fourth Industrial Revolution (4IR) Policy and Digital Economy Blueprint in the fourth quarter of 2020 is expected to enhance the productivity and competitiveness of the subsector. The formation of the Malaysian Digital Economy Task Force, which focuses on digital technology, cybersecurity, trade and digital content is expected to support the accelerate of the subsector.

(Source: Economic Outlook 2021, Ministry of Finance Malaysia)

Activity in the services sector recovered substantially, with growth recording a smaller contraction of 4.0% in 3Q 2020 (2Q 2020: -16.2%). The wholesale and retail trade subsector showed a marked improvement, with accelerated sales in the motor vehicles segment following the Sales and Services Tax (SST) exemptions, as well as better performance of the retail trade segment, supported by higher demand for necessities. The recovery, however, was weighed down by subdued spending on non-essential retail goods, such as durable goods and recreational activities. In addition, tourism activity remained weak due to continued closure of international borders, affecting key sub-sectors such as food and beverage and accommodation, as well as transport and storage. Nevertheless, relaxation on movement restrictions enabled resumption of domestic travel activity, and facilitated an incipient restoration of activity in these sub-sectors. Meanwhile, the finance and insurance sub-sector registered positive growth, supported by higher capital market activity, particularly from domestic retail participants, as well as higher net interest and fee income. In addition, growth in the information and communication sub-sector continued to improve amid higher demand for data communication services, particularly driven by the rise of remote working arrangements.

5.3 Impact of COVID-19 MCO on the operations and financial performance of AHB Group

The recent ongoing COVID-19 outbreak has caused global economic slowdown since early 2020. As the Malaysian Government enforced the MCO on 18 March 2020, any travel and social gathering had been restricted as well as closure of non-essential businesses.

Our ICT and TIS businesses had also suspended operations during the MCO. Notwithstanding the temporary suspension of operations during the MCO, the impact of COVID-19 on AHB Group's financial performance for the FYE 30 November 2020 was limited as AHB Group had gradually resumed operations since Mid May 2020 after the lifting of travel restriction within the recovery MCO period. Operationally, AHB Group will continue to comply with the Standard Operating Procedures introduced by Malaysia's Ministry of Health.

Moving forward, we expect to face some challenges from the implementation of any new rules imposed by local governments and requirements arising from the COVID-19 pandemic situation. Nevertheless, we will endeavour to comply with any such rules/ requirements and ensure that our business operations are able to function at its optimum capacity.

With the positive news on the development of the vaccines, lifting of travel restrictions, opening up of cross-border travel and normalisation of businesses, we do not foresee that AHB Group's future financial performance will be materially and adversely affected by the COVID-19 pandemic. However, there can be no assurance that any prolonged adverse development arising from MCO, COVID-19 and/ or any other external factors will not have material adverse effect on the financial performance and operations of AHB Group.

5.4 Future prospects of AHB Group

AHB Group is principally involved in 2 business segments as follows:-

- i. ICT which include telematics and navigation products and services, automotive related products, geographical information system and related products and services; and
- ii. TIS which include installation, jointing and testing of utilities, telecommunication and fibre optic cables and associated civil works.

AHB Group's revenue and segmental profit/ loss before tax for the past 3 financial years up to the FYE 30 November 2019 is set out as follows:-

	Audited FYE 30 November		
	2017	2018	2019
	RM'000	RM'000	RM'000
Revenue			
ICT	19,949	39,462	53,972
TIS	12,774	10,933	9,198
	32,723	50,395	63,170
Segment profit/ (loss) before tax			
ICT	(1,893)	1,153	6,582
TIS	167	864	844
	(1,726)	2,017	7,426

Our ICT and TIS segments recorded revenue of RM53.97 million and RM9.20 million, representing approximately 85.4% and 14.6%, respectively, of AHB Group's total revenue of RM63.17 million for the FYE 30 November 2019.

As highlighted in Section 5.1 of this Circular, Malaysia's economy registered a 17.1% contraction in the second quarter of 2020 due to the implementation of national lockdown policies in Malaysia and many countries worldwide in response to the COVID-19 pandemic that restricted many businesses from operating as usual.

Our business activities were similarly affected when the Movement Control Order was implemented on 18 March 2020. Nevertheless, we had progressively resumed our business operations since Mid May 2020 by adhering to the Standard Operating Procedures introduced by Malaysia's Ministry of Health while majority of our staff continue to work from home to support our business operations.

Following the resumption of our business operations, we will continue to focus on improving our existing products in terms of quality, design and functionality to ensure our products remain competitive and meet the requirements of our customers whilst maintaining a lean organisation structure which promotes operation efficiency and cost effectiveness.

Further, as set out in Section 4.3 of this Circular, we had raised proceeds of up to RM7.85 million from the Private Placement. We will utilise RM1.50 million of the proceeds for the setting up of a manufacturing line for our in-house design BTR and DVR, which we believe will enable us to fulfil existing orders received and ensure we have sufficient capacity to cope with increasing market demand (both domestic and overseas) in the future as well. We had also allocated RM6.30 million of the proceeds to fund our working capital requirements for our ICT and TIS segment, thus ensuring AHB Group has sufficient cash to weather any operational headwinds that may arise in the short term.

After taking into consideration the above and the outlook of the Malaysian economy and ICT industry as set out in Sections 5.1 and 5.2 of this Circular, we are cautiously optimistic that AHB Group will be able to continue delivering positive results and in turn, enhance shareholders' value in AHB Group.

6.3 Substantial shareholders' shareholdings

The Proposed Bonus Issue of Shares will not have any effect on the shareholdings of the substantial shareholders of AHB as the Bonus Shares will be allotted on a pro-rata basis to all the shareholders. However, the number of AHB Shares held by the substantial shareholders will increase proportionately as a result of the Proposed Bonus Issue of Shares.

The Proposed Issue of Free Warrants will not have any effect on the shareholdings of the substantial shareholders of AHB. 6.4 Earnings and EPS

The Proposals are not expected to have any material effect on the earnings of AHB Group for the FYE 30 November 2021. However, assuming the earnings of AHB Group remain unchanged, the EPS of AHB Group for the FYE 30 November 2021 will be proportionately diluted as a result of the increase in the number of AHB Shares in issue pursuant to the Proposed Bonus Issue of Shares, and as and when the Warrants are exercised into new AHB Shares.

The potential effects of the exercise of the Warrants on the future earnings and EPS of AHB Group will depend upon, amongst others, the number of Warrants exercised at any point in time and the benefits to be accrued to AHB Group from the utilisation of proceeds raised from the exercise of the Warrants.
